

Ace Forklift Scales

WiFi Samsung And Apple Scale device with optional scanner

Scan and record Barcodes with a Bluetooth scanner. The barcode can be registered in our app and used as required.

ScaleNET Can Provide Wireless Connectivity:

- . Forklift scales
- . Skip scales
- . Agg scales
- . Platform scales
- . Truck scales

We would like to introduce the worlds first in Smart Phone capabilities. Get rid of the old technology and replace it with our ScaleNet App and module.

Capabilities of our system

1. Use as a basic scale.
2. Ability to add multiple weights.
3. Totals can be stored, exported or emailed.
4. Four lines of information including Barcode numbers can be stored.
5. No need for a scale display as your smartphone is now your scale.

If you have any questions about an application please contact us.
